25 year old manufacturer of mechanical components, sub-assemblies and equipments for solid, powder and fluid handling and processing.

About Us

Established in the year **1992**, "**Multimedia Engineering Co.**" is regarded as a prestigious manufacturer, supplier and exporter of an impeccable gamut of **Spares and Assemblies**. We are based in **Vadodara, India**, and operate with two companies under the same wing. We started out by supplying locally to the ceramic industries in Gujarat and over the last 20 years, we have expanded our markets to the entire **Indian Subcontinent**. Our sister organization, **Microfine Carbides** was formed in 2002 and specializes primarily in the production and supply of Tungsten Carbide parts for various applications. To keep ahead in the stiff market competition, we have established a state-of-the-art infrastructure. This manufacturing unit is at par with the most advanced facilities in the world and helps us in meeting the urgent requirements of our clients. Our dynamic professionals are equipped with the apt domain knowledge and technical expertise. We are able to channelize their knowledge in the most effective manner and ensure that no human resource goes to waste. Our firm was founded by technopreneur '**Mr. Ashok Khandelwal**', with the single purpose of catering to the need of high quality spare parts in ceramic industries. It is through his sincere efforts, that we have been able to achieve astronomical success in the market.
