## About Us

We started our journey with the name Nagarjuna Construction Company Limited and have progressed consistently, creating significant value for all our stakeholders. In every company's history, there comes a time when the need arises, to future-proof the identity of the brand to serve unfolding business opportunities.

Today we are not just a construction company. We are a company that contributes to India's progress through landmark infrastructure projects which demonstrate far-reaching impact - beyond the realm of construction. We have evolved as a leading mother brand with BOT, Realty and International businesses. The need to change our name was therefore, compelling, to build a better link between the parent company and the group companies. NCC Limited is our chosen new identity, which encompasses all that we do today and aspire to do in the future.

Experiencing impressive growth and achieving synergies, we spread our wings beyond the construction space. We offer services that cut across multiple divisions to address various facets of infrastructure needs.

As we foray into new divisions, we leverage insights from over three decades of experience in the construction business. These insights coupled with innovative technology lend us a distinct advantage in taking the challenges head-on.
