## About Us

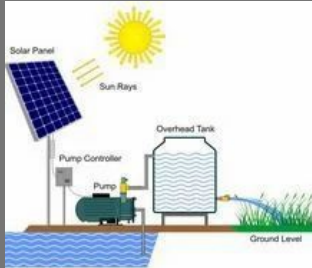

Nestro offer an exceptionally high quality service at competitive prices and we believe that our passionate and dedicated team of experts, with experience. We are specialists in the Renewable's sector, including Solar Panels, Solar Thermal, Heat Pumps, Security Products, LED Lights Integrated Systems and also offer a comprehensive aftercare service. Nestro recognize that the customer is at the heart of our business. An associate with Success and Electro group provide a significant contribution to Nestro's social welfare and commitments. This joint venture allows Nestro to share benefits and reduce risks of doing business in dissimilar markets. Nestro started in the early years of solar industry with firm belief of commercial feasibility of solar power production and a cleaner global environment. Today Nestro promises to design efficient plants so that you get reliable electricity for a long time in future. We believe that energy is the defining issue of our time. And we consider that energy, generated and distributed in the right way.
