Founded in the year **2010**, **Nine Star Systems** is leveraging the power of global technology by being the most promising **Manufacturer, Wholesaler and Exporter of Solar Lights And Display Systems.**

About Us

Founded in the year **2010**, **Nine Star Systems** is leveraging the power of global technology by being the most promising **Manufacturer, Wholesaler and Exporter** firm of next generation Solar Lights And Display Systems. Our firm belief in green energy equips us to explore innovative techniques to bring forth a wide gamut of eco efficient product range, which includes high performing Solar Products, Lighting Systems and Solar Street Lights. We are the **Service Provider** of **LED Video Wall Rental Service**. Over the years, we have strengthened our position in the marketplace by exhibiting our environmental concerns and by presenting a highly reliable product range featuring beneficial properties of compact design, light weight construction, efficient performance, protection from over charge and reverse polarity along with long rated functional life.

Our vision is to become the one stop destination developing eco friendly equipments that are thoughtfully designed to save the earth. Our efficiency to share the deepest insights earned us trust and confidence of a huge client base, including discerning entities from townships, farm houses, government offices, NGOs, remote villages and corporate offices. Further, we have experts in our team who present a mix of varied industrial backgrounds to fulfill the pledge of best in class performance, efficiency and construction of our product range. Besides, we have implemented leading manufacturing...
