## About Us

NSSL Limited (formerly Neco Schubert and Salzer Limited) was established in 1988-89. It is a part of Neco Group which was incorporated 1976. It is India's largest diversified industrial groups, having multi-location, multi-product manufacturing facilities, with turnover of more than Rs. 3000 crore.

NSSL manufactures Gate, Globe, Check, Ball and Plug Valves in Cast Steel, Stainless Steel and Alloy Steel materials, Class ranging from 150 to 2500 and size from 2" to 60". These valves are used in Oil, Natural Gas, Petroleum, Petrochemical, Fertilizer, Cement, Pulp, Power and Steel Sectors. We have state of the art modern manufacturing facilities in India and abroad and headoffice at Nagpur, India.

NSSL Limited proudly claims to be an innovation and technology driven company. We were the first company in India to manufacture and test Cryogenic valves in-house. Seeing the potential in Nuclear sector, even before it was talked of, we were the first company in India to manufacture and test Seismic valves in-house, thereafter, one of the few companies worldwide to bag an order from Saudi Aramco for manufacturing Inconel 825 clad valves. We export our valves to Kuwait, Saudi Arabia, UAE, Jordan, South Africa, The Netherlands, UK, Germany etc. We are specialized in the manufacture of Cryogenic Service application valves. We have tested upto 24" x 300# Gate valve in our in-house cryogenic testing facility. We also have facility for Fire Safe testing,...
