

# Oil Seals Manufacturing Company Pvt. Ltd.

<https://www.indiamart.com/omco/>

We are one of the leading manufacturers & exporters of an assortment of moulded and extruded rubber products like asbestos gaskets, encapsulated O rings, compressed asbestos gaskets, soft O rings etc.

## About Us

Our company was incepted in the year of **1957** as a manufacturer and exporter of various moulded & extruded rubber products and metal hydraulic components, industrial pneumatic components, rubber hydraulic components, high pressure pneumatic components, etc., that are used in various industries such as automobile, paper and pulp, acids and chemicals, beverage and many others. Our range is developed using top grades of material that are quality inspected before being used in the production of our range.

A well equipped manufacturing unit assists us meeting the bulk demands of our customers. The finalized rubber products are tested on parameters of hardness and tensile strength to ascertain their flawlessness in quality. These high quality standards are also ensured during their stocking time in our warehouse that has the capacity to store 1500 units of products at any given time.

All the aforesaid facilities are managed by a team of professionals who work under the guidance of our owner Mr. Deepak Desai. Persistent efforts of our personnel have earned us a huge customer base spread in Dubai, Middle East countries, Egypt and Australia.
