Omega Plast Industries

<https://www.indiamart.com/omega-plast/>

Excel Constructions is a well-known name in manufacturing and supplying a wide range of Chemical Processing Equipment. These products are acclaimed for their robust construction, consistent performance and longer functionality.

About Us

Established in **2005**, we, “**Omega Plast Industries**”, is engaged in the manufacturing and supplying of **Chemical Processing Equipment** like **FRP Storage Tanks, Reaction Vessels & Fiberglass Chemical Equipment** etc. to an industry wide clientele. We also offer **FRP Ducting Services & Fabrication Services**. Our clients primarily are industrial houses like chemical industries where there is a need for piping, storage and transportation of fluids. Acid & Chemical Storage Tanks find a universally application in closed factories and plants where there is a need for continuous air circulation. We employ one of the best of skilled workforce who are thorough in their tasks and contribute to build world class products. Our use of sophisticated casting, forming and drying machines help us in delivering a superior product. We are home to sophisticated world class machines for fabricating world industrial use components like the Storage tanks FRP. Our products are doubly laminated for high protection from corrosive fluids like acids. We procure high grade raw material from reliable and well known suppliers in the industry. The process of fabrication of chemical processing equipments requires precaution and precision, because even a minor error can affect the quality of the entire product. To ensure the manufacturing of high grade products in a reliable, we appoint quality checking staff, who are experts in identifying the grade of...
