Manufacturer of hydrological and meteorological instruments.

## About Us

OTT Hydromet (part of Hach Company) has been present in India for over 20 years now. Though initially operating through distributors, in 2007 OTT Hydromet added direct employees in India. Today, OTT Hydromet/HACH are proud to have over a dozen employees spread across the country. The main office in Delhi handles business in India. The company associates are seasoned Engineers or Chemists with many years of relevant Hydrometry experience and are well trained in sales or service.

### **About OTT Hydromet:**

OTT Hydromet helps water resource professionals generate reliable data throughout the entire water cycle. We go beyond simply providing solutions by partnering with our customers in designing effective answers to the challenges they encounter in their vital role of monitoring the world's water.

Proudly formed from five separate companies (OTT, Hydrolab, ADCON Telemetry, Sutron and Lufft), OTT Hydromet offers the combined strength and expertise of leaders in the water quality, quantity and telemetry fields and over 140 years of experience in environmental measurement.
