<https://www.indiamart.com/pansoftexim/>

We have earned an excellent name in the field of importing and supplying of wide variety of Anti-Skid Floor Tiles, Marmore HD Tiles and many more. We follow transparent business policies to ensure better relations with clients.

About Us

Pansoft Exim Private Limited is sole Indian **importer** of tiles manufactured by the renowned Ceramica Portinari of **Brazil**. Based in **Kolkata**, we have been importing the tiles for more than **10 years**. The usage of vitrified tiles for flooring purposes has greatly increased. These **Glazed Vitrified Tiles** are better in terms of their usage compared to Italian marbles. These imported **Glazed Vitrified Tiles** are a special type of vitrified flooring tiles which have porosity locks. The regular vitrified tiles most commonly used for flooring have small pores that let water and dirt get inside easily and erode the tile. The double porosity lock in the Ceramica Portinari range of glazed vitrified tiles protects the tiles from water and dirt. This is so because in normal vitrified tiles there is only one surface, but in glazed vitrified tiles, a special coat of glazing is applied to the tiles, which are again fire-heated at a very high temperature. Hence the name **Glazed Vitrified Tiles**. In normal vitrified tiles you cannot get Grade: 5 (PEI=5) tiles, but in Glazed Vitrified Tiles you can get up to PEI: 6 tiles. Moreover, you cannot use mechanical scrubbers on most of the tiles produced in India like Vitrified tiles, Ceramic tiles, etc., whereas in Ceramica Portinari range of glazed vitrified tiles you can do so with ease.

The tiles are available in the following sizes:

- 30 cm x 60 cm x 8.5 mm...
