PGEG Institute is a new step taken by one of the founders of professional Group Institute Mr. S R Ola to impart quality education to engineering students right from their initial grounds of graduation period.

### About Us

**PGEG** Institute is a new step taken by one of the founders of Professional Group Institute Mr. S R Ola to impart quality education to engineering students right from their initial grounds of graduation period.

We here accentuate to make the engineers understand the technical subjects by basics and concepts instead of recall the technical subjects like history for scoring in examination. This mug upping method is good enough to score marks without any technical skills to pass in the university exam but sound sinister for making outstanding career.
