Pharma Spares are the leading manufacturer of sieves and screens with over 20 years of experience in the pharmaceutical industry.

About Us

Pharma Spares are the leading manufacturer of sieves and screens with over 20 years of experience in the pharmaceutical industry. We are the inventors of the 'LEAD FREE SIEVE' Design. This sieve meets the criteria set by the USFDA & has been approved for use in Pharma Companies which follow the USFDA standards. We are offering all validation & calibration documents as per the ISO, USFDA, & USP protocols

Founded in **1986** to market sieves for the Pharma Industry, **Pharma Spares** has a long history of offering Innovative solutions for meeting and exceeding customer expectations.

In the late 1990s, we invented the “Lead Free Sieve” which revolutionized the way people used sieves & brought about a sea change in the attitude of the Pharma Industry towards use of Toxic solders.

We take great pride in innovating, manufacturing & marketing a product which brought about a nation wide reduction in the causes of Lead Poisoning.

Our invention was so popular that our Trade marked product, “**Pharma Spares Lead Free Sieve**”, has become a de rigueur standard for all Pharma Manufacturers.

It is also extremely satisfying to know that millions of people in India & the neighboring countries, who were inadvertently, being exposed to Lead poisons, (through the use of soldered sieves during the Pharma manufacturing process), were now safe because of the educative campaigns...
