Pioneer Technologies Private Limited

<https://www.indiamart.com/pioneertech/>

A complete IT Solution Provider.

Pioneer Technologies Pvt. Ltd. is pioneer in providing complete end to end solutions at every stage of your IT requirements.

About Us

Pioneer Technologies was Incepted in the year **1994 in delhi, NCR**. We use **latest technology** to offer dimensionally accurate surveillance equipments and home automation and office automation products. We use qualitative raw material and assure our customers with reliable products.

We characterize our end customers as representing a wide range of organizations ranging from small to very large enterprises. Many of our customers are involved in e-commerce. Specific vertical markets include financial, healthcare, and government sectors. We currently consist some of the best brains of the industry backed by proven track records of the individuals. Our technical team comprises of **CCNA's, MCSE's & MCSA's, CNE's** and professionals with excellent command and expertise on multi-user & proprietary operating systems.

We have done an excellent job of assembling a portfolio of products & Services that allow customers to improve the performance, scalability and dependability to manage & groom their infrastructure. The challenges for Pioneer include its ability to provide high touch sales and service to a range of global service provider clients and prospects. As the leading vendor going it alone, it is likely that Pioneer will be approached for their Network Management Services & Solutions marketing and will be considered as a potential IT partner for all major organization with complex IT infrastructure.
