Pitambar Solvex believes that there is nothing like the quality of products it manufactures. The quality is the factor which helped us to diversify our business to the world.

About Us

Pitambar Solvex Limited believes that there is nothing like the quality of products it manufactures. The quality is the factor which helped us to diversify our business to the world. We believe that it is more than just the feed but is our identity and our experienced team give their full effort to maintain it.

We derived our experience by running our two corporate units with one being located at Agra Road, Jaipur (launched in 2004) & the other one at Delhi Road, Jaipur (launched in 2014). The Delhi Road setup proved to be a catalyst in our success that we gained in our successive corporate ventures. Our managing Director Mr. S.P Tiwari who has 35 years of experience in solvent extraction from plants lead our team of expert workers. Our first plant is engaged in the business of manufacturing mustard de-oiled cake and refined oil since 2004 with a capacity of 450 TPD for De-Oil Cake & 35 TPD for Refined Mustard Oil. With this unit being a success and its products hitting the markets in a big way the directors of the company, in their bid to make the most of it, established one more Plant, PitambarSolvex Pvt. Ltd. having capacity of 500 TPD for De-Oil Cake & 40 TPD Crude Mustard Oil.
