About Us

Established in the year **2008**, at **Anand, (Gujarat, India)**, we, “**Pruthvi Engineering**”, are one of the leading organizations, engaged in **manufacturing** and **supplying** a comprehensive range of **Industrial Machines** such as **VTL Machines** and a leading **Job Works Provider** etc. All our products are designed and developed using high-grade raw material and latest technology to ensure that final output meets with international quality norms & standards. Our machines are widely appreciated by the customers for their excellent performance, easy installation, low maintenance, sturdy construction and longer functional life. Further, our material is acknowledged for corrosion & abrasion resistance, dimensional accuracy, sturdy construction and low maintenance. For fulfilling the diverse needs of our clients, we provide customization as per the specifications laid down by them.

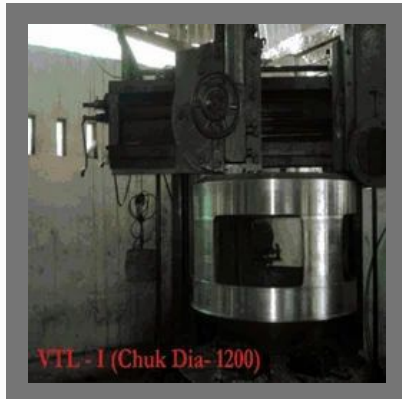

To carry out all the business related activities under one roof, we have developed a state-of-the-art infrastructure. Internally divided into various units, our infrastructure is installed with the latest technology, machinery, tools and instruments that are required for making a flawless range of products. It is managed by a team of expert professionals, who have years of experience and in-depth knowledge in their respective domains. They also utilize all the available resources for making the products as per the demands and...
