Of all the advancements made possible through science and technology, the treatment and distribution of water for safe use is truly one of the greatest. Abundant, clean water is essential for good public health.

About Us

Quality Engineering System is basically a **sole proprietorship** based company, which established in the year **2011** in India. We are the eminent **manufacturer and supplier** of **Gas Mask, Breathing Apparatus, Gas Cylinder, Coiled Tube, Gas Pressure Regulator, Leak Absorption System, Gas Filter and many more**. Apart from these, we are also the **service provider** of **Turnkey Project**.

These products are formed using superior quality raw material and tested on high parameters to ensure the quality of products. Advance machines and technology are used in manufacturing these products. We also offer customized products as per the requirements of our clients and norms of business. We have hired excellent team of professionals, which work efficiently with full dedication for completing the task. Our professionals communicate regularly to our clients to know their requirements and deliver the products to them according to their demands. We are client centric organization. Quality of our products is the trade mark of our company. Due to the standard quality of our products, we became the trustworthy organization among our valuable clients.

Mr. Saravana Kumar G. is the mentor of our organization. Under his guidance and leadership today, we are recognized as the leading manufacturer and supplier of industrial products. He supported us in all possible manners. He teaches our professionals to work...
