# Quality Manufacturing Company

<https://www.indiamart.com/quality-manufacturing/>

We are one of the prominent manufacturer, exporter and supplier of an array of nibbling, high frequency electric and air spindle and other industrial machines. Our range is appreciated by the clients for high performance and longer service life.

## About Us

Established in the year 1974, we, 'Janak Enterprises' located at Dahanu Taluka (Maharashtra, India) are engaged in manufacturing, exporting and supplying a comprehensive range of nibbling, high frequency electric & air spindle and other industrial machines. Owing to the efforts of the professionals, we are able to design and develop quality range, which is appreciated by the clients for various characteristics such as durability, ease of handling, cost-effectiveness, and corrosion resistance. Under the guidance of the professionals, we are able to manufacture double headed cutter (je- 100a), multi-functional cutter (je- 200a), nibbler cutting, medium duty cutter (je- 300a), heavy dutycutter (je- 400a) and heavy duty cutter (je- 500a). These products are designed and developed at our state-of-the-art facility using quality material. With the assistance of the experts, we are able to manufacture products such as electric spindle (TERA- THA 240), electric spindle (TERA THL 300), semi automatic pipe cutting machine, bar cutting machine, chamfering machine and hydraulic semi automatic cutting machine. **'Mr. Vipul G. Sanghavi'**, our respected mentor has driven the the professionals to offer our clients with best possible solution, which suits their requirements. Hisyears of experience in the industry has provided our professionals with an opportunity to learn learn some insides of the market and methods of effective client handling. Our clients trust...
