

Quantalase Enterprises Private Limited

<https://www.indiamart.com/quantalase/>

Quantalase Enterprises Pvt. Ltd. is a group of experts in Laser Technology, Laser Instrumentation, Optical systems and Special Optical components.

About Us

Quantalase Enterprises Pvt. Ltd. was established in 2005 by a group of experts each with more than 40 years of experience in Laser Technology, Laser Instrumentation, Optical systems and Special Optical components. India has a few manufacturers of Industrial lasers and laser systems as well as Medical lasers. However no one manufactures Lasers, Laser Instruments and Optics required by R&D programmes of India. Similarly there is hardly anyone in India who can supply special optical components such as metal mirrors for high power lasers etc. Quantalase proposes to meet some of such requirements of R&D laboratories.
