About Us

Rajasthan Electricals And Powders is a ISO 9001:2008 company and firmly established diamond tool manufacturer in India. We are based in Jaipur, Rajasthan and capably provide a large gamut of diamond wire cutting tools for various industrial applications. Our product range includes: diamond wire saws and diamond wire saw beads.

Our reputation as an organization is solely built on the foundation of its technical, engineering expertise and client-centric approach. We hold a distinct position in the market and amongst our close rivals due to the quality commitment we provide along with our products and the industry leading prices.

We pay strict attention towards the client's needs and their requirements. We deliver customized and superior quality products to them in a quest to achieve consistency, trust and rapid growth.
