TWIN SCREW BARREL

About Us

Incorporated in **2000**, we “**Raj Engineering Works**” are the eminent enterprise that attempt hard to put perfection and superior quality in all its assortments of products. Our core business is to **Manufacture, Export and Supply** high quality **Single Screw, Single Screw Barrel, Barrier Screw, Twin Screw, Twin Screw Barrel, Conical Screw Barrel, Torpedo and Groove Feed Sleeve** and many more. Furthermore, we have been acknowledged for providing unmatched quality products for various machinery such as extruder machine, injection moulding machine, blow moulding machine and many more. Manufactured and designed under the supervision of skilled and experienced professionals, our offered products have no match in the market. Our offered products are widely known for their accurate dimensions and resistance against corrosion and abrasion. Furthermore, we offer these products in various sizes and designs including customized solutions, keeping in mind the diverse needs of clients.

A facility enriched infrastructures that is sprawled over a large area at **Ahmedabad (Gujarat, India)** drive us to manufacture these products with high utility features. Owing to sturdiness, application specific design and rust resistance, these products are high on demand in the market. Over the year, we have been catering the demand of various SMEs with pride and utmost satisfaction. Also, we have kept reasonable prices for these products that...
