About Us

We, **Raj Pipe & Polymers** are one of the foremost organizations affianced in providing exceptional range of **Conduit Pipe, Unbreakable PVC Pipe, PVC Conduit Fitting, PVC Pipe, Electrical PVC Pipe, PVC Casing and Capping** and **PVC Profile**. Our products are developed at our fabrication unit using top quality raw material that is procured from consistent merchants of the industry. For development of these products high tech machinery are made in use. We have employed skilled professionals for operating these machineries. These professionals are well-known about these latest machines. Furthermore, the complete range of products is recognized for its aspects like fine finish, sturdiness, strong construction, crack proof and precise designs. One can acquire these products in varied designs, sizes and stipulations as per their requirements. Experienced group of procurement agents, packaging & carriage staff, customer care personnel and sales & marketing managers supports us. In addition to this, offered products are carefully checked on various quality grounds. Under the direction of our mentor, **Mr. Arihant Jain** of the firm we have been renowned in upholding a strong place in this domain. His skills and information of this particular domain have supported us in gaining step forward over competitors present in the market area.
