About Us

Ayurveda evolved around 5000 years back in India. This system of medicine stressed on the prevention of body ailments in addition to curing them. Followed by the Dravidians and Aryans alike, Ayurveda has been practiced ever since. Today, it's a unique, indispensable branch of medicine - a complete naturalistic system that depends on the diagnosis of your body's humours - vata, pitta and kapha - to achieve the right balance. Ayurveda believes in the treatment of not just the affected part, but the individual as a whole. Making it the natural way to refresh you, eliminate all toxic imbalances from the body and thus regain resistance and good health.

With the grace of God Dhanwanthari and the Blessings of Elders and with abundant active Goodwill around us, it is our aim to make our Wellness Centre – Unique, unique in every possible way.

It's our heart's desire to render treatments of enduring relief that enshrine the vision of our forefathers.

We endeavour to offer our patients worthwhile treatments fulfilling each according to his needs and ailments serving all alike. In short we seek to serve man and God through this pious medium of Ayurveda.
