## About Us

About Reasiqu Software Solutions Pvt Ltd Reasiqu Software Solutions Pvt Ltd is in the business of providing consultancy and development services in IT field for primarily finance sector firms for the past 6 years. We offer our professional expertise and experience to provide consultancy for

- Performance tuning
- Business analysis
- Software analysis
- Software design
- Software development and
- Software Testing

We have people with over 10 years experience on variety of platforms. Our team includes leaders who have managed 40 to 60 engineer projects for 2-3 years as also group leaders managing six-month projects with 3 to 5 people. Why Choose Us? We are a technology neutral company working on various platforms as per customer requirements. We have worked on .Net platform as also on Java/ JSP/ Php platforms. Our RDBMS experience is varied as we have worked on Oracle, My SQL, SQL Server and MS Access databases. We have experience in working in 3-tier as well as client server technologies. We have designed and developed projects in web based (public network) as well as closed LAN environments. We have worked with the Central bank of the country and Central Depository to SME companies.
