About Us

We are Auto Insurance specialists. Backed by our proprietary technology, we are fast getting established as India's premier online auto insurance comparison platform.

As car and bike owners we understand the pain that people face once a year- Insurance renewal. So we decided to make this a simple, transparent and smooth process. Besides, there is a lot of money to be saved by being smart on your insurance renewal. RenewBuy has designed a strong backend technology integration with leading insurance companies. Our technology enables consumers to find lowest quotes from leading insurers and save up to 60% on their renewal premium. By just filling in a few details (this takes seconds) our backend searches and scans hundreds of policy types and prices from the best companies and gives you the best of the best
