About Us

R. S. Machine Tools is the Pioneering Company for "Food Processing Machinery" Since 1985. We have pride for developing such a new products in "Food Processing Machinery" with new technology by researching our self,

We believe in quality and our motto is to satisfaction of Customer by using our products, we sell our products in INDIA and many more Country and trying our best to have our machine in all country, We Deals Directly with our customer that's why we got new requirement and that's helps us to make our products day by day, better than best.

Moreover, I have much interested in making new machines since when I was studying, as our traditional business of machinery and oil engines, I was inspired to start my own new unit, in which I can search something new and very useful to large market, after my market searching, I have Decided to select to start the new techniques for making of food processing machine in 1985 and develop center wise market for my products, any sweet maker, Namkeen manufacturer, Ice-Cream Parlor, Restaurants, Dairy Farm, and Temples Etc. many more can use my products and save time and fuel. So I make more efforts in research and development and development of my products, and today my all valuable customers are satisfy with my products, It is big Certificate for me and then I spare my more time in research and development of my products. Since today I make so many types of relevant machines for food processing.
