About Us

Ayurveda is a 500 years old science of health and care & herbal treatment. Ayurveda is derived from two Sanskrit root words: “ayu”, which means life and “Veda”, which means the knowledge. Thus ayurveda refers to science of life. Ayurveda is a holistic Indian system of medicine that uses a constitutional model. It works to provide a flexible guidance to the body to attain a state of positive health; ayurveda is now backed by modern scientific research and technologies and provides its gentle healing touch to millions around the world. Ayurveda is a twice blend of science, religion and philosophy. The word religion is to denote philosophical perception and discipline in conduct through which, the doors of perception open to all aspects of life. Through its scientific approach to human life ayurveda works to harness the intricate abilities of human body and mind with its philosophical approach to human life. Ayurveda prefers to recognize ourselves as minuscule component of this magnificent universe. **S A Herbal** one of the India's most respected company. S A Herbal (Kolkata) established in 1995 has played a pioneering role in re establishing ancient knowledge with modern research and manufacturing technique. The company deals with 100% ayurvedic medicine manufactured in clean and green environment. Every product we manufacture has to pass through stringent laboratory test...
