Trader of all kinds of Tupperware lunch boxes, Tupperware Kitchen products, Tupperware Refrigerator products and Dry storage products.

## About Us

Earl Silas Tupper(1907-1983) An American innovator and amateur inventor with many a strange idea, mostly of practical utility, was a creative and adamant man whose acumen showed in the creation of ordinary and familiar household products that combined thrift with post war (WW II) yearning of modernity and modernization. While polythene was being perfected, Tupper started working as a model maker in Leomister, Massachusetts, under license of the chemical giant Du Pont in 1937. The discovery of Nylon would later be attributed to Du Pont. And having familiarized with the first plastics, he founded in 1939 “Tupper Plastics Company”.
