About Us

About Saigani Technologies Saigani was found with a simple objective - to become a leading off shore development centre in this millennium. To achieve our objective we firmly believe that three things are essential - quality people, quality processes and continuous client relationship. From the very first day of inception the focus has been on getting the best talents in their respective fields and setting up quality business processes. We shall continue to strive in that direction till we meet our objective.

Saigani provides total software solutions to its customers. Saigani works closely with the customers to identify their business processes for computerization and help them implement state-of-the-art solutions. By identifying and enhancing their processes through information technology solutions. Saigani helps its customers optimally use their resources. The latest tools are identified and customized systems are built to provide the solutions that not only address the current needs of the customers but also take care of future expansions.
