

# Saksoft Limited

<https://www.indiamart.com/sak-abrasives/>

Manufacturer, supplier and exporter of a full range of high-quality abrasives including bonded, coated, super abrasives etc.

## About Us

Established in 1997, Sak Abrasives – A division of Sak Industries Private Limited has gained international recognition as a world - class producer of bonded, coated and super abrasive products. The high quality finish and cost - effectiveness of our products have made us the preferred choice of many leading corporations in India and the USA. The company's well-equipped R&D team, staffed with highly experienced engineers, enables the development of grinding wheels catered to customer requirements, along with continuous analysis and performance tests in support of product development. More than 250,000 square feet is dedicated to production, inventory and customer service in our production facilities in India. As a leading full line manufacturer of grinding wheels, Sak Abrasives offers precision built products of high quality and performance for virtually every conceivable manufacturing application. Our unique industry approach combines both sales and engineering expertise to determine the most cost-effective and expedient solution for your grinding needs. The company began on a modest note with depressed center and cutoff wheels, followed by snagging wheels in collaboration with a Swiss partner company in 1997. The efficient production processes were complemented by knowledge of formulation and wheel design, and their subsequent adaptation to the Indian market. The product offerings have grown in the last...
