we are the leading manufacturer of veterinary medicines, feed supplements, ayurvedic and allopathic products and non-pareil seeds.

## About Us

Salus Pharmaceuticals was established in 2001 by **Mr Atul Shah** in Himatnagar, Gujarat, to manufacture a wide range of Allopathic Products, Feed Supplements, Ayurvedic products and Non-pareil Seeds. Our range of products is formulated with genuine ingredients and is used by many in various industries and by a common man.

We are backed by good infrastructure facilities. With use of advanced technology based processes and dedicated support of our team members, we are in a position to meet specific requirements of our clients and to deliver the products before the stipulated time. Our chemists and pharmacists including support staff have a deep knowledge of the products and understand the clients' requirements before taking up a particular job. Our products ensure quick recover and maintain good energy and health. Our clients' trust on us has provided an edge over our competitors and we have successfully developed our wide clientele across the country. Moreover, we have set certain standards in the industry with our innovative approach and hard work.

We manufacture our range of ayurvedic, alopathic medicines, feed supplements and non-pareil seeds products as per Good Manufacturing Practice (GMP) standard to ensure safe, pure and effective product. We aim to supply our quality products under one roof as a one stop solution to our clients. This attitude enables to be different from our competitors. We ensure quality production to meet the...
