Sansoft Technologies

<https://www.indiamart.com/sansoft-technologies-kathua/>

Manufacturer and exporter of computer networking products and commercial computers. Also engaged in offering web hosting services, web designing services and internet services.

About Us

Sansoft technologies - kathua started in 2002 with a vision to provide customers with the technology support they need to compete and thrive in the new economy. Through our core services, we help established businesses adapt their it infrastructures to the changing requirements of the rapidly evolving digital marketplace.

Till date sansoft technologies has served 1000+ customers. These customers include a diverse group of professionals, individuals, corporations with complex computing and networking requirements.

Unlike most technology support providers, service is sansoft technologies - kathua's only business.

We have the ability to offer clients a customized, single-source solution for all their technology products and support requirements.

Company history

Since last 11+ years, sansoft technologies has operated ahead of the technology curve, meeting a wide range of customer support needs. Sansoft technologies started as only small-scale computer system assembling company and has expanded operations to include networking, annual maintenance contracts, remote support, e - security solutions, thin client implementation, digitilization, asset management services etc.

Today sansoft technologies is poised to meet the diverse technical support needs of customers in the new economy.
