Satori have emerged as one of the renowned organizations engaged in rendering **Japanese Translation and Interpretation Services**.

About Us

Established in the year **2002**, we “**Satori & Sv-Creation**”, have emerged as a renowned service provider of linguistic solutions such as Translation, Interpretation. Apart from this, we also provide **Corporate Gifts, Language Translation Service, Japanese Linguistic Solutions, Online Japanese Language Store and Transcription Service** to our clients. To render these services with utmost efficiency, we are supported by qualified language professionals, translators and interpreters. We translate software manuals, test cases, error messages, legal/technical documents, sales brochures, patents, websites and subtitles.

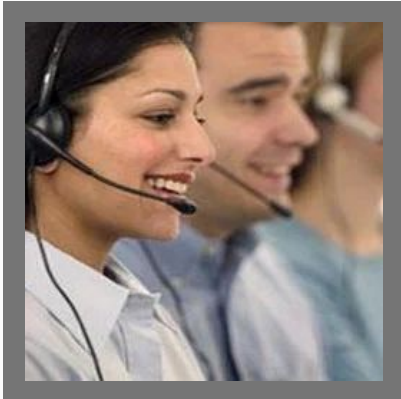

For enhancing the overall translation process, we use advanced translation tools, technical & digital dictionaries, online dictionaries and glossaries. These tools allow us to translate documents created in Word, Excel, HTML and Acrobat format. We also use native Japanese translator if required, to ensure that the translations are accurate and comprehensible. For maximum accuracy, all the translated documents are edited and proof read after which a final review is carried out.

Under the able guidance of our mentor “Mr. Aniruddha”, we have carved a niche for ourselves in the service sector. His sharp business acumen and years of experience enable us to meet the emerging market demands.
