We are one of the reputed dealers and suppliers of Electronic Security Devices. These products are highly admired for their optimum functionality, longer functional life, reliability and easy installation.

## About Us

Established in the year **2010**, we, '**Secure Plus, Mumbai**', have gained prominence in dealing and supplying a comprehensive assortment of **Electronic Security Devices**. Although being a new entrant in the market, we have been able to muster a huge clientele all over the domestic market for our products. The products supplied by us are entirely sourced from authorized and certified manufacturers, who utilize cutting-edge technology and finest grade components to develop these entire range. Our products are extensively used for various security applications in offices, apartments, bungalows, factories, schools, showrooms and other related sectors. Our spacious and well-structured warehousing unit facilitates us to safely store our range in an organized manner. Furthermore, with the assistance of our team members, we are able to deliver each ordered consignment within the stipulated time-frame at the clients' premises. Our team members work in close coordination with the clients so as to gauge their specific needs and offer them with the products that suit their application requirements. Under the valuable guidance of our mentor, '**Mr.Rohit Khamkar And Rahul Nalawade**', we have experienced tremendous growth in this domain. His transparent excellent managerial capabilities and business acumen have enabled us to establish huge client base across domestic markets.
