About Us

We Seereba Engineers was established in the year 2013. We take this opportunity to introduce ourselves as a leading enterprise dealing in Process control Instruments such as Flow, Level, Pressure, Temperature, Process Indicators & controllers. We have well qualified & experienced team of customer support engineer. We have constantly presented new techniques with advanced grade of sophistication and customer anticipated structures to proposal a broad variety of process control instruments including Level Switches for Hydraulic power packs, standard level gauges, switches for fluids to cover wide-ranging applications in industrial segment.

We offer flexible and effective support services with specialists that understand evolving customer requirements and emerging technologies, this level of know-how enables us to look beyond traditional answers to improved processes to meet even stringent performance expectations. The company has grown from a quality service provider to an established leader in the technical marketplace, offering quality state-of-the-art products for measurement and control of temperature, humidity, pressure, strain, force, flow, level, pH and conductivity. Seereba Engineers also provides customers with a complete line of data acquisition and Control, Emissions monitoring products for Stacks in different industries.

CONTROL SWITCHES

Metal Differential Pressure Switches

Local Mount Temperature Switches

Electronic Dual Pressure Switches

Compact Pressure Switches

FLUID CONTROL VALVES

Butterfly Valve

Globe Valves

Diaphragm Valves

Mounted Heavy Duty Valve

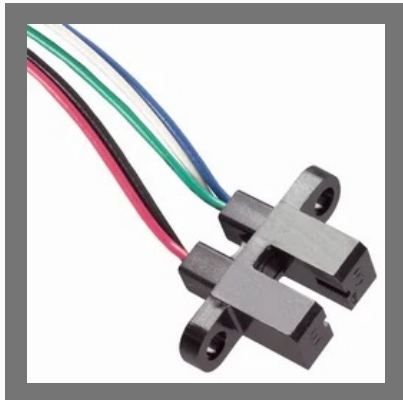

ELECTRONIC SENSORS

Sensor Wire Connections

Dual Sensor Rotary Actuators

Slot Sensors

Factsheet

Year of Establishment : 2013

Nature of Business : Exporter

Total Number of Employees : Upto 10 People
