

# Saket Energy Private Limited

<https://www.indiamart.com/sepl-surat/>

Manufacturer and exporter of energy saving devices, hybrid based power plants, energy saving light etc.

## About Us

We offer to build and operate Sea Wave & Hybrid Power Plant in any interested country. The plant will be fully financed by our company provided the government signs on an agreement to purchase the entire electricity generated by the plant. The price will be based on market rates, but will not exceed the current electricity rates. Our company guarantees the lowest cost of production and selling of electricity. Our rates are much lower than coal, gas, energy or wind power.
