<https://www.indiamart.com/servent-dot-in/>

We are network of service providers involved in Home/facility management and maintenance. You need any services in emergency with in your region. Call / SMS @ +91-94900 69000

## About Us

**Servent** is a **peer-to-peer network node**, which has the functionality of both a server and a client & connects these ends. We all understand the need for such a connecting link between the service providers and the customers in a shared market place. We intend to create platform where service providers can register their services to get access to the larger market opportunities and service needed individuals will get prompt, quality service under our professional monitoring.
