Our organization is one of the leading distributors and suppliers of Pins, Filters, Jack Hammers and Spare Parts for Tractors. These products find their application in agriculture, automobile and construction industries.

## About Us

In the year **2001**, '**Shivam Earthmoving Spares**' made its debut into the field of distributing and supplying high quality **Pins, Filters, Jack Hammers And Spare Parts For Tractors**. Encashing on our rich industry experience and reliable vendors we are proud to deliver only quality approved products to our customers. These vendors manufacture our products with high-grade raw material that ranks our products high, amongst other players of the industry. The Filters that we supply find their usage for excellent extraction & absorption of elements and better filtrate results. In addition to this our other products Pins, Jack Hammers and Spare Parts for Tractors find their usage across agriculture, automobile and construction industries. We have a capacious warehouse wherein, all the products are strategically placed in proper order which enables us to easily identify the products in the lot. Our professionals have also incorporated several techniques and store the procured range at our sophisticated warehouse with proper safety. Furthermore, we have also done extensive market research in identifying most reliable C&F agents, who assure to deliver the consignments within the stipulated time frame. We effectively coordinate with them to supply the products within estimated time. Our mentor '**Mr. Prajapati**' has an extensive industry experience and is an absolute no-compromise individual when it comes to work. Under is guidance, our...
