## About Us

Shrawan Mines has been a manufacturer of quality Civil earth materials since 1989. We produce basalt stone products such as stone aggregates for concrete, quarry dust, and all in design mix concrete products. Our products are instrumental to the emerging infrastructure. Shrawan mines manufacturers and transports aggregate to sites at localities such as Surat, Navsari, Valsad, Vapi, Bilimora, Daman, and Mumbai Maharashtra at conservative rates. We are a relationship based organization, and adhere to special requirements of various sites and project types. 90% of our customers are repeat customers. Shrawan Mines and our affiliates continue to enhance our operations to meet the fluctuated demand, strict requirements, and emerging technology of the industry. We commit to providing quality aggregate for concrete per Bureau of Indian Standards and International Standards Organization. We offer clear solutions for advancing construction techniques.

Enquire about our products or send us your structural goals we will be able to provide an engineered solution.
