About Us

Shree Krishna Polymer Industries, a well known and established name in the field of world class pet preforms & bottles, needs no introduction. The company is manufacturing a wide range of quality products. Our products have carved out place for itself at the market place and is synonymous to quality Pets. The company is putting its sincere efforts to produce quality products. The company is having all in house facilities and latest machinery with skilled workforce. The company is very choosy in selecting the raw material and tests all its products before delivery. The company has an aim to manufacture more accurate and zero defect products with high quality raw material. The company is offering its quality products all over India and has a major market share.

We are India's emerging custom molded PET producer.

The worldwide preference of PET resin in manufacturing containers has opened a plethora of packaging options for almost all industries like pharmaceuticals, beverages, confectionery, personal care, liquor etc. We work with customers in these industries to create functional, attractive and cost-effective packaging to meet their needs.

An admirably high percentage of industrial acceptances, due to our consistent quality and dependable delivery schedules, have propelled us to grow to such heights. As our valued customers, you can be sure that your most demanding product designs are expertly handled by our experienced and highly skilled product engineering...
