About Us

Shri Ganesh Chemical Industries is a diversified technology company with a long history of developing breakthrough adhesive and coating technologies for Paper-Printing, Packaging and Converting Industry, Flexible Packaging Industry, Hygiene Industry, Labeling Adhesives for Breweries, Distilleries and Pharma Industries, Shoe and other miscellaneous industries that significantly improve the performance of our customers' products. We have provided innovative solutions to demanding Printing and problems for nearly 18 years. SGCI possesses a very modern and green manufacturing installation near Delhi with 'State of the Art' Facilities and Equipments. The emphasis of the company is on 'Innovation', and therefore the core of the company is its Research and Development Wing. It has a fully equipped modern laboratory staffed by dedicated, highly qualified and experienced scientists. This has been the major reason for development of such a wide range of products. Equally advanced, separate laboratories are there for Quality Control, Product Applications and their Testing. **Innovative offer of solutions & services**

- Based on the winning combination of extensive local knowledge & national experience

Proximity with our customers

- A network of flexible and local plants to make our products and services more accessible
- A strong...
