## About Us

Established in 1976, the Shrijee Group is a well-known name in the Indian and international sugar industry. Besides offering turnkey sugar projects, Shrijee also offers galvanized steel structures such as transmission towers, solar structures, and substation structures. Shrijee is also well-known for providing high-quality hot-dip galvanizing services. Also, Shrijee has introduced several innovative labour saving mechanical devices for sugarcane plantations. Furthermore, Shrijee Group offers wind powered exhaust fans and heavy fabrication as well. Our corporate headquarters are in Mumbai, India. We also have regional offices in Delhi & Chennai. To cater to our numerous national and international clients, we have four fully equipped manufacturing facilities located in the western and southern parts of India. We invite you to explore our website. To know more about each of our business divisions, kindly click on their links. In case you have any questions or comments, please contact us. We will be happy to hear from you.
