About Us

Signet Engineers, a fully vertically integrated and complete Solution provider company - concentrating on satisfying customer needs with high quality, high utility and high technology products through innovative marketing.

The foundation of the company's growth over the last decade is a deep understanding of economic stimuli and customer needs, and the ability to translate them into customer-desired offerings. The satisfaction of our customers is the focus of our activities. Their requirements present and future are our orientation for the improvement of our products and services.

"With quality products and motivated employees, we shall continue to give our customers the latest State of the Art products that fulfill their exacting requirements and thus set example for our competitors to follow". The headquarters of Signet Engineers is in Pune, Maharashtra. Since its founding more than a decade ago, the company has developed into a national player. The network of the company guarantees marketability and flexibility. No matter where they are in the country, our customers encounter the same qualities - The power and expertise of a national player combined with the dynamics of a medium-sized company.

Consistent investments in innovative products in the range of External Lightning Protection (ESE Lightning Arresters), Surge Protection Devices and Maintenance Free Earthing, Signet Engineers has offered value added...
