About Us

M/S SIMEX ELECTRO-TECH SYSTEMS, since 1999, has been concentrating in the field of identifying power quality disturbances and offering total power solutions using latest technologies, for last one decade. Close association with designers, manufacturers and users of CNC'S, computers and Hi-Tech electronic equipments manufacturers have provided us with detailed insight into various aspects of power quality.

We provide total power solutions by providing Servo control voltage stabilizer with power guard, Solid state power conditioner, Active & passive harmonic filters, Thyristar based power factor controller, Solid state (capacitor less) power factor controller. Industrial UPS, Isolation transformers, SMPS /DC power supply and their spare parts. Our main focus is to satisfy customer requirements in providing a quality product backed by good after sales service.

Our dedicated team helps in constantly, upgrading the equipments, technologies features and providing new concepts in designing, manufacture and in maintenance service to ensure high safety and reliability.

Servo Controlled Voltage Stabilizer Spare Parts

Spares for all types of Indian servo Stabilizers

DC To DC Converter

RTPFC Panel

AUTOMATIC POWER FACTOR CONTROLLER

Contactor Based Power Factor Controller

Thyristor Based Power Factor Controller

APFC With De Tuned Inductor

Total Solid State Controller (P.F.)

SERVO CONTROL VOLTAGE STABILIZERS

Variac Based Power
Conditioner

Industrial UPS

Igbt Based Power Conditioner

OTHER PRODUCTS

Servo Control Voltage Stabilizer

Isolation Transformation And Servo Stabilizer

Real Time Power Factor Control Panel

Industrial Online UPS

Factsheet

Year of Establishment	: 1999
Nature of Business	: Manufacturer
Total Number of Employees	: 11 to 25 People
