About Us

Simla Agencies is a well established import-export based partnership firm in the field of timber for over 50 years.

Our key products are premium quality timbers and plywoods. In timbers we provide Burma teak logs and cut sizes. Our plywoods are 100% Gurjan and are used for construction and decorative applications. All our items are sourced from Myanmar, where the best wood is grown.

Our flagship brand Sim-Ply and other brands viz. Sim-Flex, Sim-Board and Sim-Ven are pioneering products in the premium plywood segment, and are a result of choosing 100% pure material, extensive R & D and superior manufacturing processes.

We follow strict quality control processes. We are an ISO company.

Our products are always easily available thanks to our attention to continuous supplies and thanks to our vast all-India distribution network.
