<https://www.indiamart.com/skandachemicals/>

We are an eminent manufacturer, trader and exporter of industrial grade chemicals used in pharmaceutical, bulk drug, food, petroleum refineries and many more industries. Our products are acknowledged for their supreme quality and purity.

## About Us

Skanda Chemical Technologies was established in the year of 2006. We are the Manufacturer, Exporter and Trader of Industrial Grade Chemicals like Caustic Soda, Zinc Sulphate, Hydro Chloric Acid, Calcium Hypo Chloride etc. which are used in pharmaceutical, bulk drug, food, petroleum refineries and many more industries. Quality is our prime motto. We have quality analysis department and a manufacturing unit, that work in coherence to ensure the bulk production of quality products, at par with market standards. All products are checked and tested several times before packaging, to ensure high quality and hence ascertain complete customer satisfaction. Apart, the purity, effectiveness, accurate composition, precise pH value and safe to use features of our range have increased its demand in various industries. We deliver the ordered consignment in stipulated time frame to client destination via the support of experienced C&F agents. Our product is known for its Acknowledgement, Superior Quality and Purity. Our products are prepared using latest techniques and durable equipment. They are operated by our qualified and experienced professionals, who have expertise in processing different types of chemicals along with maintaining high quality standards.

Our business has experienced immense growth under the efficient guidance and leadership of our mentors. Their valuable insights and rich experience has helped us in improving the overall productivity of our...
