Skipper Electricals was incepted in 1986 in India as a manufacturer of sub-station equipment. For over 28 years Skipper has been a major contributor towards the power and infrastructural landscape of India, Middle East and West Africa.

About Us

Skipper Electricals was incepted in 1986 in India as a manufacturer of sub-station equipment. For over 28 years Skipper has been a major contributor towards the power and infrastructural landscape of India, Middle East and West Africa.

Skipper with its global corporate headquarters in Dubai, today stands as a well-diversified group with its business interests in manufacturing of sub-station equipment, EPC projects of Sub-stations, Transmission lines, Rural Electrification, Balance of Plant of Power Generating Stations and turn-key projects of Hydro, Thermal and Solar Power Generation.

Skipper endeavors to be an international leading power and infrastructure enterprise most admired for its people, performance and partnerships.
