## About Us

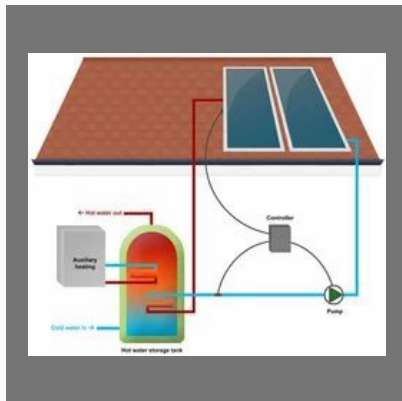

SMART POWER is a strong well-diversified conglomerate which is active on areas of solar power. our aim is to achieve complete customer happiness. Satisfaction is not a target for us, it is the absolute minimum. We don't like words like 'good' or 'satisfactory', we like 'exceptional' and 'fantastic'. When you phone our office, your call will be answered by a person, not a machine. And that's just the start!

We trade as a social enterprise. We are passionate about renewable energy and caring for our environment. We aim to be carbon neutral by the end of our first year of trading.
