About Us

Established in the year **2014**, we are stepped into the market by the name of Southern Gases. To satisfy the growing needs of customers, our company is engaged in **processing** and **supplying Dry Ice** and **Carbon Dioxide Gas**. The products that we provide to the customers are available in various capacities as per the needs of customers. Used in various industries, hospitals, food industry and many more application areas, these products are highly demanded in the market. We provide products to the patrons in safe packaging option in order to ensure their correct delivery. We have recruited team members for handling various operations of business. Our team works with dedication and diligence to meet the changing needs of customers. We provide these products to the customers at affordable rates and after testing them on various parameters to ensure their correctness. Situated in **Hyderabad (Telangana, India)**, we are backed by state of art infrastructure which is divided into various departments. The units of our infrastructure comprise quality control, packaging, warehouse, testing and others that help us to carry out activities of business separately. Our infrastructure helps us to meet the bulk of requirements of customers in the committed time frame and effectively. The team members of our company first know the needs of customers and then provide them products with assurance to provide complete satisfaction. Under...
