We are one of the most revered firms engaged in manufacturing and supplying a pristine line of sealing and packaging machines. These equipment are acknowledged for their excellent performance and easy operations.

About Us

Established in the **year 1998**, we, '**S P Engineering**', have carved an indelible niche for ourselves in this highly dynamic market. Owing to our profound expertise, we are counted among the most sought after manufacturers and suppliers of an immaculate spectrum of , **Sealing and Packaging Machines**. The equipment manufactured under our aegis score high on efficiency, surface finish, reliability and functional life. Owing to these attributes, these machines find wide applications in various industries like packaging, filling and many more. Being a quality-centered organization, we strictly follow the protocol of delivering a defect-less array of machines to the elite patrons. We ensure that only tested spare parts, procured from the certified vendors are used to manufacture these equipment. Moreover, advanced machines and techniques are employed by the technocrats to engineer these. This enables us to utilize the resources in the best possible way, making our assortment cost-effective. Post production, we test these on various parameters such as tensile strength, bond & seal strength, leak integrity and many more. Further, we accept payment through various easy modes such as **cheque, DD and LC** to ease out the tedious process of monetary transaction. Our mentor, '**Mr. Pravesh Pandey**', has been a major driving force behind our rapid burgeon. His remarkable business acumen and in-depth expertise in this domain have enabled us to...
