We are counted amongst the fastest growing Manufacturer, Supplier, Trader and Exporter firms building growth through Process Instruments. Quality system, cost effectiveness and ease of installation services are some of the traits that set our compan

About Us

SPA Instruments founded in 1994, as a partnership company and subsequently became a Pvt. Ltd. organization in 1997. Since inception SPA Instruments is engaged in field of instrumentation & Automation. Steadily “SPA instruments” has grown its indigenously developed range of product line to complete panel and field instrumentation requirements. By a humble start with just a 100 square feet of rented work place, now we have our own huge & well equipped Manufacturing and Assembly setup located at D-II Block, MIDC Chinchwad Pune, India.

In 2006, SPA Instruments has started system integration activity. Under this activity SPA Instruments has achieved sustained growth over last ten years in the field of turnkey instrumentation & Automation business. Repeat orders and completed projects pass track record shows SPA Instruments Success in the field. AT SPA Instruments , we are committed for providing solutions per applications in the area of Process and Factory Automation, Machine Automation, (PLC, VFD, MCC Panels), Substation Automation, Energy Management System, Building Automation. SPA Instruments is known for the complete system's solution provider to improve plant productivity and process optimized solutions.

Over the time, SPA Instruments have been encouraged by customers for its excellence and expertise for providing c to c solution. Today, SPA Instruments has become leader in process automation field. For over 2 decades, SPA Instruments...
