**Spink Controls** is a highly recognized **Manufacturer, Supplier** and **Exporter of Measuring Instruments.**

## About Us

Established in the year **2000**, One of the most enduring of all the ancient laws of humanity is that we see the world not as it is, but as we are. By improving, refining and defining who we are, we see the world from the highest clearest perspective. We at Spink Controls continually strive to better our products to suit and surpass the industry requirements. Spink Controls is India's leading process instrumentation company.

Spink Controls' products are used by various Industry Leaders in the fields of Pharmaceuticals, Water Treatment, Chemical Manufacturers, Steel Industry and many other Process Industries. Spink Controls has a growing list of high end Domestic Clients and equally growing International Clients.

Under the insightful guidance of **Mr. Vinayak Rangdal** and his team with more than 20 years of experience, Spink Controls has been designing, producing & marketing instrumentation products with exemplary service backup.
